THE ILLINOIS GERRYMANDER. SPRINGFIELD, Ills., June 2.—The discovery that the township of Riverside, in Cook county, had been omitted in the resportionment, which omission invaliapportionment, which omission invalidates the whole measure, has caused much excitement among the Democrats. As the bill has passed both houses and been signed by the governor, there is no remedy but to pass a new bill. Another measure, including Riverside township, was prepared and read the first time today. It was ordered to second reading, and was made a special order for next Monday evening.

Judge Julius Dubose of Shelby county was disposed of today by the court of impreschaent. The bouse of representatives preferred thirty-six charges against him, and the senate found him guily of two of them. One of the charges on which he was found guilty was ordering the arrest of Henry Kennedy after Kennedy had been released on a writ of habese corpose. The other charge on which he was found guilty was trying to get Mrs. McBride to give up \$10,000 worth of property which had been decreed to her by the court of chancery in divorce proceedings. The proof showed that Dubose was working in the interest of the divorced husband.

STRIKE RUFFIANISM.

LEMONT, Ilis., June 2.-There was a reign of terror today along the route of the drainage canal between Lemont and Rome. Four hundred quarrymen struck for an increase in wages, and, with clubs and revolvers, marched from one stone and revolvers, marched from one stone quarry to another, gaining additions to their ranks, and stopping at many of the saloons on the way, until, almost crazed with liquor, they left the quarries and rushed upon the nearest camp of the contractors on the drainage canal line. Camp after camp was visited, and in each the men were driven from work. Where they had the temerity to resist they were assaulted by the strikers. Many men were severely injured, and it is thought that one, James Powderly, will die.

New York, June 2 -R. G. Dun & Co,'s Weekly Review of Trade says:

"More disheartening conditions prevailed during the past week, and those lowed him, begging him to return, and he shot and mortally wounded her. His mother denounced him for the crime and disappointed. The money markets have disappointed. The money markets have been closer, especially in the interior, and manufacturing and trade are more restricted than before. Gold has gone out again, exports for the week being about again, exports for the week being about \$5,000,000, and the treasury gold reserve has been drawn down to about \$50,000,000. In nearly all departments of trade the uncertainty about the future has a depressing influence, which is now clearly perceived in the decrease of new business, and, while most manufacturing works are now employed on full orders, as these run out the number of works closed is increased. the number of works closed is increased The dry goods merchants are in trouble with the clothiers, who throw tack goods ordered, apparently to get them at lower prices, and little is doing in spring goods.

The most feasible means of replenishing

The most feasible means of replenishing the gold store, and the one which would be the most popular in Wall street, would be an issue of bonds, but it is still the president's determination not to issue bonds certainly not until every other remedy has been tried and until the gold reserve reaches a much lower figure than it is at present believed will ever be the case. The plan by which the restoration of gold is to be accomplished is said to be exceedingly simple. Secretary Carlisle, who is the author of the scheme, refuses to divulge the slightest information concerning it.

THE CHICAGO GRAIN MARKET. CHICAGO, June 2,-There was a new low record made on 'change in wheat; there was also unwonted excitement, besides a failure in the trade. The feeling was very nervous over the slaughter of stocks both in Chicago and New York and rumors of western bank troubles. A panicky bear pit prevailed to such an extent that it is not at all improbable that the selling was much overdone. Wheat started with a much overdone. Wheat started with a rebound of % cent from last night. July then sold at 60% and September at 73% cents. The decline had already wiped out the early advance when the clearing house posted the small firm of Kellogg & Forsyth as not meeting their debt balances. The fear that other small failures might follow made the trade unduly excited. The fear that other small failures might follow made the trade unduly excited. The decline went on until June touched 66 cents—a point never before reached in this market: July, 60½ cents, and September, 71½ cents. There was less than ¼ cent recovery at the close. Cudaby and Wright led the selling and freely predicted 65 cents for July.

Corn, under a fair demand, sold up a fraction and held steady for awhile at the

raction and held steady for awhile at the advance. The decline in wheat, however, was too much of a factor, and prices soon fell off, the final losses being > 65, cent.

Outs near the opening were at the highest price of the day, while the closing price was the lowest, and the net decline is

cents lower.

STOCKS AND BONDS. New York, June 2.—Stocks opened weak and lower, at declines ranging from % to 1%, the latter being in General Electric. After the opening there was an improved tone and a general advance of 1402 per cent, chiefly on purchases to cover short contracts. After the bears had ceased buying a reaction of 14012 took place. Stocks were feverish and irregular toward noon, with fractional declines below the 11 of look figures.
